SAMPLE LABEL

AMIODARONE 5 mg/mL Suspension

Shake well. Room Temperature.

Date Prepared: _____ Date Expired: _____

MANUFACTURING DIRECTIONS

1. Crush tablets in mortar and reduce to a fine powder.
2. Levigate powder with a small amount of methylcellulose to make a fine paste.
3. Continue to add methylcellulose until product liquid enough to transfer to a graduated cylinder.
4. Rinse mortar several times with methylcellulose and add to product in graduated cylinder.
5. QS to final volume with simple syrup.
6. Dispense in amber plastic bottles.

STABILITY

45 days at room temperature (when refrigerated for 90 days product settles into sticky, unsuspendable residue)
