Hope and destiny: a patient's and parent's guide to Sickle Cell Disease and Sickle Cell Trait /

Platt, Allan F -- Roscoe, IL: Hilton Pub, 2002.

This resource provides clear-cut and in-depth information on living with the illness. It offers the information on preventing complications, research, and treatment. The knowledge patients and family members need is organized in an easy-to-read format that promotes overall healthy living.
FAM RJ 416 .S53 P56

Nutrition for the child with sickle cell disease / Williams, Ruth -- Memphis, TN: St. Jude Children's Research Hospital, 1996.

This book for children with sickle cell disease contains facts about nutrition, activities to help them learn about nutrition, and a section for parents.
FAM RJ 416 .S53 W54

Sickle cell disease / Peak, Lizbeth. -- Detroit: Lucent Books, 2008.

Discusses the causes, symptoms, and treatment options for sickle cell anemia and describes what populations are predisposed toward the disease.
FAM RC 641.7 .S5 P43 2008

Sickle cell disease / Jones, Phill. -- New York: Chelsea House Publishers, 2008.

Explores the scientific discoveries that led to an understanding of the genetic basis of the disease, explaining how a single mutation in hemoglobin multiplies into the many symptoms of sickle cell disease. Also investigated are treatments that help individuals manage sickle cell disease symptoms, and how gene therapy and stem cell therapy may one day lead to a cure for the disease.
FAM RC 641.7 .S5 J67 2008

Taking control: teenagers living with sickle cell disease / Day, Sara -- Memphis, TN: St. Jude Children's Research Hospital, 1994.

This booklet has chapters on the following: an overview of sickle cell disease; pain and infection; general health issues; complications and common treatment options.
FAM RJ 416 .S53 T34
