Initial

Health Card Number:

DOB (yy/mm/dd):

Telephone:

Address:

Legal Sex:

☐ Male

☐ Female

☐ Unknown

Optional - Sex assigned
at birth:

☐ Male

☐ Female

☐ Unknown

☐ Uncertain ☐ Not recorded

Optional - Patient Consent to share results:

Sharing results for family testing: By checking the box below, the patient authorizes CHEO to use their results to guide testing or interpretation for relatives within CHEO's Genetic Diagnostic Lab. Results are used only to inform family member testing decisions. Consent can be changed at any time by contacting the lab. ☐ Patient consents to sharing results with family members

For Lab Use Only – See collection instructions under “Specimen”

Collection Date:

Collection Centre:

Collected By:

Specimen - For more information, see <https://www.cheo.on.ca/en/clinics-services-programs/sample-requirements-and-shipping.aspx>

☐ Collect in NaHep (green top) tubes 10 mL
for adults and children 3 mL for newborns

☐ Peripheral Blood ☐ Cord Blood

☐ Oncology Blood ☐ Bone Marrow

WBC: **Blast%:**

☐ Other **Type:**

Prenatal

Gestational Age: _____

Amniotic Fluid

Chorionic Villi

☐ Twin A ☐ Twin B

Comments:

☐ Collect in sterile container with sterile
culture medium and 1% antibiotics or
with sterile isotonic saline solution

☐ Fresh Tissue **Source:**

☐ Skin

Billing (Non-OHIP / Institutional Only- *Attach Ministry of Health or IFHP approval documentation)

☐ Ministry of Health Approved (e.g. RAMQ)*

☐ Ministry of Health Pending Approval

☐ IFHP Approved*

☐ Non-insured (i.e. self-pay)

☐ Institutional Billing (complete details below)

Clinical Indication For more information, see <https://www.cheo.on.ca/en/clinics-services-programs/genetic-tests-available.aspx>

☐ 3 or more unsuccessful IVF treatment cycles and
a diagnosis of unexplained infertility

☐ 3 or more recurrent clinical miscarriages or
pregnancy losses

☐ Family history of chromosome abnormality or rearrangement (*Attach a copy of the report. If a copy of the relevant report(s) is not available, please give as much detail as possible in the “Other” field below; however, testing in your patient may be hampered by the absence of familial records due to limitations of tests.*)

☐ Primary amenorrhea +/- other feature(s) of sex
chromosome abnormality

☐ Sperm abnormalities including azoospermia and
severe oligospermia

☐ Primary/premature ovarian
insufficiency/failure

☐ 1-2 miscarriages with
history of infertility

Privacy statement: By attaching a copy of the familial report, I attest that my patient/patient's guardian has obtained express consent or I have obtained express consent from their family member/proband for CHEO to use the family member's/proband's report and biological relationship for the purpose of genetic testing and evaluation (e.g. variant is maternally inherited). Consent cannot be withdrawn once the report is complete. No identifiers of the patient will be included in the proband's report, other than the biological relationship. The patient will receive their own report.

☐ Other – **Specify:**

Test(s) Ordered - For more information, see <https://www.cheo.on.ca/en/clinics-services-programs/genetic-tests-available.aspx>

☐ Chromosome Analysis

☐ Rapid Aneuploidy Detection (RAD) by QF-PCR

☐ FISH – **specify target(s) of interest** (see our website above for details):

For follow-up of microarray results by FISH, please use the [Microarray and Microarray Follow-Up Testing Requisition](#) instead

☐ Tissue culture freeze

☐ Tissue culture hold

☐ Transfer cultured cells to the Molecular Genetics section of the Genetics Diagnostic Laboratory (**attach Molecular Genetics requisition**)

☐ Ship cultured cells to:

☐ Ship direct specimen to:

For shipment, please attach all requisitions/documentation required by the external laboratory along with shipping information.

GENETICS LAB ONLY

Sample size: _____ ml or mg Villi Quality: ☐ Typical ☐ Atypical ☐ Absent

Fluid Quality Clear

☐ Cloudy ☐ Slight Blood ☐ Gross Blood ☐ Discoloured

Pellet Quality

☐ Normal ☐ Tissue ☐ Bloody Pellet Size: ☐ S ☐ M ☐ L
